

ADHESIVE LINED WRAPAROUND SLEEVE HEAT SHRINK CABLE SLEEVE

Problem: Customers in the communication sector were looking for an optimum solution for eliminating service interruptions during troubleshooting sweeps and maintenance cycles.

Solution: CFTV QuickSeal™ was presented as an adhesive lined wraparound heat shrink sleeve that can be applied without the interruption of service, making it an ideal solution for the protection of housing to housing connectors, retrofit protection of exposed connectors and repair of damaged cable or fibre.

PRODUCT NAME

CFTV QuickSeal™

PRODUCT DESCRIPTION

Heat shrink, adhesive lined wraparound sleeve providing complete environmental sealing without disconnection

APPLICATION

- Connectorized cable repair
- Water resistance and encapsulation
- Repair damage from squirrels, rodents, fibre nicks or construction
- Retrofit protection of connections
- Used in confined spaces underground and ideal for protection of housing to housing connectors

ADVANTAGE

- Capability to provide professional customer service and custom solution
- Minimizes system downtime and eliminates the risk of service disruptions
- Proven Canusa CFTV adhesive ensures an absolutely waterproof seal
- Helps to eliminate moisture ingress and loosening problems that are common with housing to housing connectors
- Significant protection advantages over tape
- A time and cost saving solution that will ensure that all weak links are sealed from the environment
- Minimal heat required for error free installation without splitting
- Thermochromatic lines that change colour upon correct shrink temperature

ADDITIONAL ATTRIBUTES

CFTV QuickSeal™ can be cut to size in the field to suit the application

MARKET SEGMENT

Communications, Electrical, Industrial OEM

OTHER POTENTIAL USES

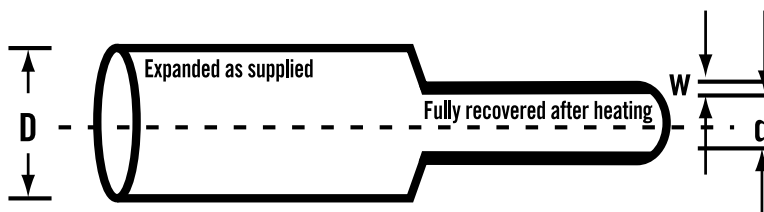

Electric Utilities

INSTALLATION NOTES

- CFTV QuickSeal™ is a one size fits all solution that can accommodate all sizes of cable and connectors. CFTV QuickSeal™ can be cut to length and width in the field to fit the specific application. Simply wrap CFTV QuickSeal™ around the cable or connector, ensuring adequate overlap, and then firmly apply the closure to hold CFTV QuickSeal™ together during the heat shrinking process. Please refer to the installation instructions included with each CFTV QuickSeal™ for more detailed information.

ORDERING

- Please specify the product name plus the options you require.
- Order Example: CFTV QuickSeal™, 1, 36 in length

Please contact your Customer Service Representative for information on custom sizes and lengths
